Contents

NUMBER 1, JANUARY

1 Potassium contractures in the mouse diaphragm: Regional variation in the multiphasic response
Y. N. Singh and W. F. Dryden

9 The effect of smoking on caffeine elimination: Implications for its use as a semiquantitative test of liver function
T. L. Murphy, C. McIvor, A. Yap, W. G. E. Cooksley, J. W. Halliday and L. W. Powell

15 Effect of 3 day infusion of ACTH or CRF on the pituitary-adrenal axis
S. Silberberg and J. W. Funder

23 Cardiovascular responses to acute myocardial ischaemia in morphine-dependent rats
W. W-W. Ko, S. Dai and M-Y. Chan

33 Involvement of α_1-adrenoceptors in chronotropic responses to endogenously released amines in the pithed rat
A. De Luca and M. J. Rand

43 Alterations of β-adrenoceptors on human leukocyte subsets induced by dynamic exercise: Effect of prednisone
D. Ratge, A. Wiedemann, K. P. Kohse and H. Wisser

55 The effect of captopril or enalaprilic acid on the Na appetite of Na-deplete rats
R. S. Weisinger, D. A. Denton, R. Di Nicolantonio and M. J. McKinley

Short Communications

67 Rapid haemodynamic responses to atrial natriuretic factor (99–126) in conscious sheep
D. G. Parkes, J. P. Coghlan, J. G. McDougall and B. A. Scoggins

71 Distribution of cadmium in body organs and hepatic metallothionein content following chelation therapy
P. C. Tewari, S. J. S. Flora and S. K. Tandon

NUMBER 2, FEBRUARY

79 Introduction
T. Morgan

80 Festschrift to Emeritus Professor Austin E. Doyle: An Australian view
C. Johnston

81 Festschrift to Emeritus Professor Austin E. Doyle: A British view
C. Dollery

83 Endothelium-derived relaxing factor released from cultured cells: Differentiation from nitric oxide
G. J. Dusting, M. A. Read and A. G. Stewart

93 Calcium antagonists and hypertension
W. G. Nayler, J. S. Dillon and W. J. Sturrock

105 Secondary signalling mechanisms in angiotensin II-stimulated vascular smooth muscle cells
K. K. Griendling, B. C. Berk, L. Socorro, T. Tsuda, P. Delafontaine and R. W. Alexander

113 Angiotensins II and III prevent captopril-induced renin release in the rat
G. K. Moldenhauer, M. D. Smith, R. Di Nicolantonio, A. E. Doyle and T. O. Morgan

123 Relative inhibitory potency and plasma drug levels of angiotensin converting enzyme inhibitors in the rat
C. I. Johnston, R. Cubela and B. Jackson

131 Effect of enalapril treatment on progression of the nephrotoxic serum nephritis model of renal failure in the rat
B. Jackson and L. Debrevi

137 Comparative neuroanatomy of angiotensin II receptor localization in the mammalian hypothalamus
A. M. Allen, M. J. McKinley and F. A. O. Mendelsohn

147 *N*-Methyl-D-aspartate receptors in the spinal cord mediate pressor responses to stimulation of the rostral ventrolateral medulla in the rat
E. H. Mills, J. B. Minson, P. M. Pilowsky and J. P. Chalmers

157 Altered levels of neuropeptides in the medulla and spinal cord of spontaneously hypertensive rats
B. Jarrott, S. J. Lewis, C. Maccarrone and A. Shulkes

NUMBER 3, MARCH

163 Receptors and steroid-dependent hypertension
J. P. Coghlan, A. F. Reid, C. D. Spence, B. A. Scoggins and J. A. Whitworth

173 Atrial natriuretic factor in human pathophysiology
I. G. Crozier, A. M. Richards, M. G. Nicholls, E. A. Espiner, H. Ikram and T. G. Yandle

185 Risk-benefit of specific antihypertensive regimens: Relevance of metabolic and haemodynamic effects of α_1-blockers
J. L. Reid, J. Curzio and H. L. Elliott

191 Effect of antihypertensive therapy on the cardiovascular amplifiers
P. I. Korner, M. A. Adams, G. L. Jennings and A. Bobik

199 Effects of antihypertensive drugs on cardiovascular risk factors
L. G. Howes and W. J. Louis

203 Risk-benefits of antihypertensive drugs — β-blockers
B. N. C. Prichard

215 Non-pharmacological control of blood pressure
L. J. Beilin

225 Change in blood pressure in relation to change in nutrients effected by manipulation of dietary sodium and potassium
C. A. Nowson and T. O. Morgan

NUMBER 4, APRIL

Proceedings of the High Blood Pressure Research Council of Australia

243 Point of view: Why hypertension is overdiagnosed and overtreated in 1987
R. D. Gordon

251 An unusual phosphatidylinositol turnover pathway in noradrenaline-perfused rat hearts
E. A. Woodcock, A. I. Smith, C. A. Wallace and L. B. Schmauk White

257 Red blood cell ionized calcium concentration in spontaneous hypertension: Modulation *in vivo* by the calcium antagonist PN200.110
M. J. Morris, M. David-Dufilho and M. A. Devynck

261 An appraisal of the effects of usual vs recent alcohol intake on blood pressure
I. B. Puddey, D. A. Jenner, L. J. Beilin and R. Vandongen

265 Voluntary blood pressure control using continuous systolic blood pressure biofeedback
M. Cejnar, S. N. Hunyor, G. W. Liggins and R. Bartrop

271 Decreased renal responses to atrial natriuretic peptide in renal wrap hypertension
M. Takata, K. M. Denton, R. L. Woods and W. P. Anderson

275 Effect of pure eicosapentaenoic acid feeding on blood pressure and vascular reactivity in spontaneously hypertensive rats
K. Yin, K. D. Croft and L. J. Beilin

281 Spontaneous oscillations in cytoplasmic free calcium concentration in vascular smooth muscle: A potential mechanism associated with myogenic tone
A. Bobik, P. L. Weissberg and P. J. Little

285 A two-site monoclonal immunoradiometric assay for total renin protein: Comparison with an established enzyme kinetic assay
R. L. Thatcher, J. A. Whitworth, D. G. Casley, C. I. Johnston and S. L. Skinner

289 Time course of changes in baroreceptor reflex control of heart rate in conscious SHR and WKY: Contribution of the cardiac vagus and sympathetic nerves
G. A. Head and M. A. Adams

293 Inhibition of serotonin-induced ACTH release in man by clonidine
R. V. Jackson, J. E. Grice, A. J. Jackson, R. D. Vella and M. B. Armour

299 Response of atrial natriuretic peptide to adrenaline and noradrenaline infusion in man
T. J. Tunny, A. W. Bachmann and R. D. Gordon

305 Effects of indomethacin on steroid-induced chnges in pressor responsiveness in man
J. A. Whitworth, J. M. C. Connell, D. Gordon and B. A. Scoggins

311 Effects of volume expansion and contraction on plasma levels of atrial natriuretic peptide in man
W. L. Finn, R. D. Gordon, T. J. Tunny, S. A. Klemm and S. M. Hamlet

317 Adrenal transitional zone steroids, 18-oxo and 18-hydroxycortisol, useful in the diagnosis of primary aldosteronism, are ACTH-dependent
S. M. Hamlet, R. D. Gordon, C. E. Gomez-Sanchez, T. J. Tunny and S. A. Klemm

323 Attenuated renal response to atrial natriuretic peptide infusion in rats with heart failure
M. Kohzuki, G. P. Hodsman, R. W. Harrison and C. I. Johnston

327 The effect of epanolol on intra-arterial ambulatory blood pressure and the baroreceptor heart rate reflex in essential hypertension
S. A. Smith and W. A. Littler

333 Serum lipids in insulin-dependent diabetics are markedly altered by dietary fish oils
T. A. Mori, R. Vandongen, J. R. L. Masarei, D. Dunbar and K. G. Stanton

339 Three *Alu* repeated sequences associated with a human glandular kallikrein gene
L. J. Schedlich and B. J. Morris

345 Vascular smooth muscle polyploidy in the development and regression of hypertension
M. J. Black, M. A. Adams, A. Bobik, J. H. Campbell and G. R. Campbell

349 Altering angiotensin levels by administration of captopril or indomethacin, or by angiotensin infusion, contributes to an understanding of atrial natriuretic peptide regulation in man
S. A. Klemm, R. D. Gordon, T. J. Tunny and S. M. Hamlet

357 High salt diet decreases longevity in the spontaneously hypertensive rat
R. Di Nicolantonio, M. J. Silvapulle, S. Spargo and T. O. Morgan

361 Effect of glycaemic control on glomerular filtration rate in the streptozotocin diabetic rat
B. Jackson, L. Franze, T. J. Allen, R. O'Brien, M. Cooper, G. P. Hodsman and G. Jerums

367 The effect of dietary fish oil and long-term salt loading on blood pressure and eicosanoid metabolism in spontaneously hypertensive rats
K. D. Croft, L. J. Beilin, J. Codde and R. Vandongen

NUMBER 5, MAY

373 Renin response to graded haemorrhage in conscious rats
T. P. Roarty and H. Raff

379 An analysis of the haemodynamic effects of tolbutamide in conscious dogs
K. C. Lee, R. A. Wilson, D. C. Randall, R. J. Altiere and J. A. Kiritsy-Roy

391 Thermogenesis and the effect of injected catecholamines on the oxygen consumption of cafeteria-fed rats
G. M. Maxwell, S. Nobbs, F. Fourie and D. J. Bates

401 Inhibition of vasodilatation by methylene blue in large and small arteries of the dog hindlimb *in vivo*
C. G. Sobey, O. L. Woodman and G. J. Dusting

411 Pre- and postjunctional effects of neuropeptide Y on the rabbit isolated ear artery
H. K. Wong-Dusting and M. J. Rand

419 Dihydrocyclosporin D in sheep: Haemodynamic and renal effects
J. J. Tresham, J. A. Whitworth, J. J. G. de Lima, J. G. McDougall and B. A. Scoggins

427 Action of mefloquine on agonist-induced contractions of the guinea-pig isolated ileum
M. L. Go and H. S. Lee

433 **Book Reviews**

435 Corrigendum

NUMBER 6, JUNE

437 Effect of labetalol on human platelet function
G. Anfossi, M. Trovati, M. Lanzio, E. Mularoni, P. Massucco and G. Emanuelli

449 Endothelium-dependent inhibition of sympathetic vasoconstriction by frusemide administration to rats
J. F. Gerkens, S. J. Armsworth, P. J. Dosen and A. J. Smith

457 The effect of trifluoperazine on bronchial responsiveness in asthma
J. J. Bowden, K. M. Latimer, A. J. Crockett and R. E. Ruffin

465 Effect of diabetes mellitus on salivary paracetamol elimination
C. Adithan, D. Danda, R. P. Swaminathan, J. Indhiresan, C. H. Shasindran, J. S. Bapna and S. Chandrasekar

473 Calmodulin-antagonist drugs and porcine malignant hyperpyrexia
S. P. Collins, M. D. White and M. A. Denborough

479 Effects of tubocurarine on end-plate current rundown and quantal content during rapid nerve stimulation in the snake
A. J. Harborne, W. C. Bowman and I. G. Marshall

Short Communications

491 Effect of vasoactive intestinal polypeptide infusions on renal function in patients with liver disease
J. Calam, R. J. Unwin, S. Dorudi, C. Taylor, C. J. Springer and W. S. Peart

497 Letter to the Editor: *Artemisia herba-alba* Asso. in diabetes mellitus
N. S. Al-Waili

499 **Book Reviews**

NUMBER 7, JULY

501 Editorial Review: Control of glomerulosa cell function by angiotensin II: Transduction by G-proteins and inositol polyphosphates
K. J. Catt, T. Balla, A. J. Baukal, W. P. Hausdorff and G. Aguilera

517 Effect of dietary fish oils on the formation of leukotriene B_4 and B_5, thromboxane and platelet activating factor by rat leukocytes
K. D. Croft, J. P. Codde, A. Barden, R. Vandongen and L. J. Beilin

527 Effect of dipyridamole on blood glucose and liver cyclic AMP levels and platelet count during endotoxaemia in mice
L. M. Al-Jibouri and R. A. Najim

533 Cardiovascular response to emotional stress and spontaneous blood pressure variability in genetically hypertensive rats of the Lyon strain
C. Julien, C. Cerutti, P. Kandza, C. Barres, D. Su, M. Vincent and J. Sassard

539 Effects of orpanoxin on arachidonic acid metabolism of human polymorphonuclear leucocytes and platelets *in vitro*
I. L. Doerr, J. Kaufman and R. R. Brooks

551 Renal effects of atrial natriuretic factor (99–126) in conscious sodium-replete sheep
N. A. Yates, J. G. McDougall, J. P. Coghlan, A. R. Coker, A. P. Gibson and B. A. Scoggins

Short Communication

563 Bupivacaine acute toxicity protection by diazepam in mice
B. Bruguerolle, N. Emperaire, A. Ottomani and J. C. Manelli

NUMBER 8, AUGUST

565 The interrelationship of morphine and the parasympathetic nervous system in digoxin-induced arrhythmias in the guinea-pig
S. W. Rabkin

575 Simulation of acute haemorrhage in unanaesthetized rabbits
J. Ludbrook, S. J. Potocnik and R. L. Woods

585 Calmodulin-independent stimulation of renin release by exposure of rat kidney cortical slices to calcium
Y. Matsumura, Y. Koyama, H. Shinyama, T. Uriu, T. Ichihara and S. Morimoto

591 Interaction between atrial natriuretic factor and ouabain: Vascular reactivity to noradrenaline in pentobarbital anaesthetized dogs
M. S. Chintala and B. S. Jandhyala

601 Modulation of adrenal catecholamine release by Da_2 dopamine receptors in the anaesthetized dog
S. Foucart, P. Lacaille-Belanger, T. Kimura, R. Nadeau and J. de Champlain

613 Inhibition by cocaine of noradrenaline release from sympathetic nerves in the rabbit ear artery
D. A. S. Parker and I. S. de la Lande

619 Potassium excretion in renal failure in the rat: The role of distal tubule flow and aldosterone
W. R. Adam, B. A. Adams and A. G. Ellis

Short Communication

649 Effect of short course chemotherapy on salivary paracetamol elimination
K. Madhusudanarao, J. S. Bapna, C. Adithan, K. Ray, N. Venkatadri, G. Lenin Kamatchi, M. L. Seetharaman and P. Bahadur

NUMBER 9, SEPTEMBER

645 Introduction
J. N. Pennefather and M. E. Story

647 Comparison of the activity of circular and longitudinal myometrium from pregnant rats: Co-ordination between muscle layers
B. A. Tomiyasu, C. J. Chen and J. M. Marshall

657 Ionic mechanisms underlying action potentials in myometrium
H. C. Parkington and H. A. Coleman

667 Neurochemistry of the sympathetic innervation to the uterus
C. Bell and S. J. Malcolm

675 Catecholamine inactivation in uterine tissues: Changes in pregnancy in the rat
J. A. Kennedy and I. S. de la Lande

681 β-Adrenoceptors in circular and longitudinal myometrial membranes and in lung membranes from dioestrous and post-partum guinea-pigs
G. M. Handberg, E. A. Davis, S. Hall, P. Molenaar, R. J. Summers and J. N. Pennefather

695 α_1- and α_2-Adrenoceptors of the circular myometrium from the dioestrous guinea-pig
J. Haynes and J. N. Pennefather

703 Effects of adrenaline, isoprenaline and forskolin on prenant human myometrial preparations
M. E. Story, S. Hall, S. P. Ziccone and J. D. Paull

715 Human placental acetylcholine content and release at parturition
S. P. Brennecke, S. Chen, R. G. King and A. L. A. Boura

NUMBER 10, OCTOBER

727 A study of central neurotransmitter mechanisms in morphine-induced 'Straub reaction' in mice: Role of central dopamine receptors
M. L. Gupta, R. Nath, T. K. Gupta and G. P. Gupta

733 Influence of acute myocardial ischaemia on ventricular cyclic AMP concentrations in naïve and morphine-treated rats
W. W. W. Ko, S. Dai and M-Y. Chan

741 Blood pressure, salt appetite and mortality of genetically hypertensive and normotensive rats maintained on high and low salt diets from weaning
R. Di Nicolantonio and M. J. Silvapulle

753 Relationship between the dose–response effects of diazepam and clobazam on electroencephalographic parameters and on kindled amygdaloid seizure activity in rats
Q. L. G. Harris, S. J. Lewis, N. A. Young, F. J. E. Vajda and B. Jarrott

765 Rilmenidine acts as a partial agonist at prejunctional α_2-adrenoceptors in guinea-pig atria
C. G. Li and M. J. Rand

773 Involvement of hypothalamic adrenaline in the clonidine withdrawal syndrome in normotensive and spontaneously hypertensive rats
S. J. Lewis, P. Rowe and B. Jarrott

781 Effect of potassium loading on bone sodium and total exchangeable sodium in sheep
A. F. Reid, J. P. Coghlan, J. G. McDougall, J. A. Whitworth and B. A. Scoggins

Short Communications

789 Catecholamine concentrations during exposure of resting man to the heat of a standard sweat test
R. Wilkinson and R. H. Johnson

795 Long-lasting depolarization of the central terminals of cutaneous afferents in L7 segment evoked by volleys ascending from the sacral cord in the cat
K. Lupa, G. Wójcik, R. Tarnecki and A. Niechaj

799 Effect of oestradiol replacement on swim-induced antinociception in ovariectomized mice
C-L. Wong

803 **Book Review**

NUMBER 11, NOVEMBER

805 Inhibition of α-tocopherol and calcium calmodulin-stimulated phosphodiesterase activity *in vitro* by anthracyclines
R. N. P. Nwankwoala and W. L. West

815 Studies on the specificity of the inhibitory action of *N,N*-diisopropyl-*N'*-isoamyl-*N'*-diethylaminoethylurea (P-286) on adrenal catecholamine release in the anaesthetized rat
E. Malta and J. A. Angus

827 Disposition of phenytoin and phenobarbitone in the isolated perfused human placenta
R. M. Kluck, G. R. Cannell, W. D. Hooper, M. J. Eadie and R. G. Dickinson

837 Markers of physical integrity and metabolic variability of the perfused human placental lobule
G. R. Cannell, R. M. Kluck, S. E. Hamilton, R. H. Mortimer, W. D. Hooper and R. G. Dickinson

845 Effect of atrial peptide on collecting duct function
W. Fitzgibbon and T. Morgan

857 Effect of pH on vasopressin-induced water permeability in collecting ducts of isolated rat papillae
W. Fitzgibbon and T. Morgan

865 Met-enkephalin and the enkephalin analogue FK-33824 centrally inhibit adrenocorticotrophic hormone secretion in sheep
X. Wang, J. J. Tresham, B. A. Scoggins and J. P. Coghlan

875 Mineralocorticoids are not involved in the antihypertensive effect of neonatal thymectomy in the genetically hypertensive LH rat
A. Bataillard, C. E. Gomez-Sanchez, M. Vincent, J-L. Touraine and J. Sassard

Short Communications

883 Interaction between phenytoin and theophylline in healthy volunteers
G. I. Adebayo

889 Oxidation phenotyping in Chinese and Malay populations
E. J. D. Lee, P. N. Yeoh and N. H. Gong

892 **Announcement**

NUMBER 12, DECEMBER

893 Influence of bile acids on the biliary transport maximum of phenolsulphonphthalein in the rat
P. S. Collado, M. E. Muñoz, A. Esteller and J. González

901 Caffeine- and potassium-induced contractures of mouse isolated soleus muscle: Effects of verapamil, manganese, EGTA and calcium withdrawal
A. O. Savage and K. G. Atanga

913 Resistance of sympathetic cardiac nerve function in the pithed rat to prejunctional effects of angiotensin II
M. P. Rechtman, R. G. King and A. L. A. Boura

919 Effects of prostaglandin D_2 and omeprazole on indomethacin-induced gastric ulcers in rats
A. Fukui, S. Nakazawa, H. Goto, S. Sugiyama and T. Ozawa

927 Effects of thromboxane synthetase inhibitor (UK 38,485) and thromboxane receptor antagonist (ICI 185,282) on digoxin-induced arrhythmias in anaesthetized guinea-pigs
I. Kanzik, A. T. Demiryürek, H. Zengil, N. Abacioğlu and H. Dörtlemez

937 Train-of-four fade during neuromuscular blockade induced by tubocurarine, succinylcholine or α-bungarotoxin in the rat isolated hemidiaphragm
L. S. Cheah and M. C. E. Gwee

945 Enhancement of renal but not haemodynamic effects of atrial natriuretic peptide (1-28) in sheep treated with ACTH
D. G. Parkes, J. P. Coghlan, J. G. McDougall and B. A. Scoggins

Short Communications

955 Plasma neuropeptide Y and atrial natriuretic peptide concentrations in man
A. E. Russell, P. E. Aylward, S. A. Smith, M. D. Cain, R. J. McRitchie and J. P. Chalmers

959 Effect of furazolidone and nitrofurazone on brain gamma-amino butyric acid and glutamate concentrations in chickens
B. H. Ali
